Product Description of Weld Steel Plastic Geogrid Superior Quality For Steel Plastic Geogrid

Item	Weld Steel Plastic Geogrid Superior Quality For Steel Plastic Geogrid
Raw Material	fiber glass
Grade	A grade
Colors	White /black
Standard Width	1m-6m, could be cut into small width
Characteristics:	High strength, High temperature resistance, Low elongation at break, Good toughness, Long life
Applications	(1) Reinforcement of roads, railways and airport roads; (2) Maintenance, reconstruction and widening of old road surface (asphalt road or cement concrete road); (3) Reduces construction cost, extends service life of roads and prevents deflection cracks. (4)It is applied in old asphalt cement pavement to reinforce the asphalt surface, and prevent diseases; (5)It is applied in cement pavement to reconstruct composite road surface, and restrain plate shrink to cause reflection crack; (6)It is applied in reconstruction project of road to prevent cracks caused by connection of old and new roads and differential settlement; (7)It is applied in reinforcement of soft earth bed, which is benefit for soft earth to absorb water and fix, restrain settlement effectively, and reinforce the strength of roadbed; (8)The semi-rigid base of new-built road is easy to produce shrinkage crack, fiberglass geogrid can reinforce the crack of the road surface caused by crack reflection

Soil Reinforcement Fiber Glass Asphalt Road Use Geogrid is a kind of plane network shape material that selects
excellent reinforcement non-alkali fiberglass yarn. It is woven into base material by using foreign advanced warp
knitter and adopts warp knitted directional structure.
Glass fiber geogrid is a kind of geosynthetic material that has developed rapidly in recent years. It is
manufactured from high quality glass fiber. It uses warp knitted oriented structure and makes use of the mechnical
property to improve its tensile strength. And then coat the network material with bitumen.

Company Profile

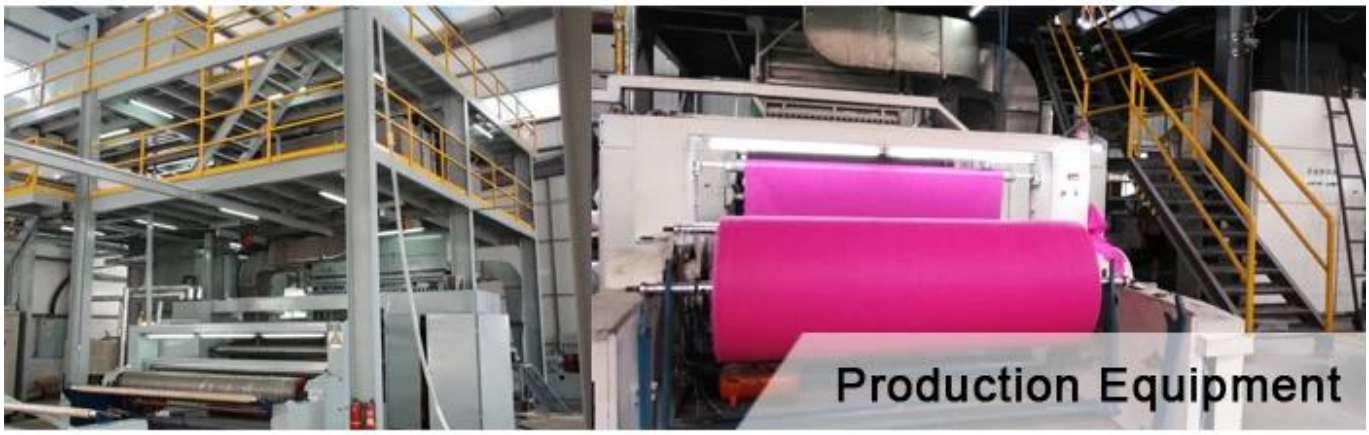
GUANGZHOU JUNQIAN NONWOVEN CO., LTD. is an enterprise located in Guangzhou city, Guangdong province,
covering an area of 58500 square meters. Concurrently, it owns its special sales company - **FOSHAN GUIDE TEXTILE
CO., LTD.**, which is located in Foshan city. We are engaging in manufacture and sales of non woven fabric and
non woven related products, since 2005. Up to now, we have professional elite sales team, several

advanced non woven
production lines with width of 1.6M, 1.9M, 2.1M, 2.5M, 3.2M, etc. Our products are well sold both in domestic and
overseas markets, widely used in areas of agriculture and gardening, medical and hygiene, personal care and beauty,
industry application, packaging and wrapping, foundation and building, hotel and restaurant, labour protection and
household, decoration, etc.

We are specializing at manufacturing and supplying many different specification PET Short Fiber Non Woven Geotextile
For Highway Construction. Offer latest product information for Top Quality Elastic Non Woven Fabric with competitive price.

We have strict quality management system, and equipped with professional non woven test. Our products meet various
of standards and own various of certificates and reports, such as SGS, MSDS, BUREAU VERITAS, CE, Nemko,
TüV Rheinland, ATC, CTI, etc. We can design and produce according to customer's requirements and specifications,
depending on the advanced technology and excellent management. Relying on many clients' trust, we are also offering
cousultant and agency services on non woven products. With the business principle of "Quality First, Reputation Builds
Future", we keep on diligently and excelsior working, to improve marketing competitive abilities, and finally accomplish
company goal.

We are manufacturers of Weld Steel Plastic Geogrid. Offering Plastic Geogrid.
Wholesale Superior Quality For Steel Plastic Geogrid.



FAQ of Weld Steel Plastic Geogrid Superior Quality For Steel Plastic Geogrid

Question	Answer
Q1: Do you have it in stock ?	A1: Yes,we have.
Q2: What is your MOQ ?	A2: Customized:1ton
Q3: How can I get the sample ?	A3: If you need sample to test, we can make it as per your request. But we need to charge sample fees. If it is our regular product in stock, you just pay freight cost and sample is free.
Q4: What is your package detail ?	A4: individually packed for each pcs,or customer's requirements

Q5: What should I do if I cannot find what I looking for on your website ?	A5: Please feel free to contact us by email and send detailed information for the product you look for.We will check whether it is available.
Q6: What about lead time for mass production ?	A6: Honestly, it depends on the order quantity and the season you place order. Generally speaking,the lead time is about 2-4 weeks. So we suggest that you start inquiry as earlier as possible.
Q7: Is it all right to make customer’s own brand name ?	A7: Sure. We warmly welcome the OEM clients. We can discuss the package, design, etc.
Q8: When can I get the price ?	A8: Usually we quote within 24 hours after we get your inquiry detail. If you are very urgent to get the price, please call us or tell us in your email so that we will quote your the price as soon as possible.
