Feature	hydrophilic effect is good; feel soft and comfortable; no stimulation of the skin ;
Applications	medical & health materials

Product Show of RX09-973 SS Green Color Sesame Pattern Polypropylene Spunbonded Non-woven Fabric

A close-up photograph of a nonwoven fabric with a perforated pattern. The fabric is light-colored, possibly beige or off-white, and features a regular grid of small, circular holes. The texture appears fibrous and slightly uneven. The lighting is soft, highlighting the individual fibers and the depth of the perforations. The image is oriented vertically, with the perforated fabric occupying most of the frame. A diagonal line of a different material or layer is visible in the upper right corner, suggesting a layered or multi-layered structure.
