YZ-C1

A close-up photograph of a grey, textured nonwoven fabric. The fabric has a consistent, repeating pattern of small, raised, circular or oval shapes, giving it a dimpled or pitted appearance. The texture is uniform across the surface. In the upper left corner, a portion of a smooth, light-colored surface is visible, likely a wall or ceiling, which meets the fabric at a diagonal line. The overall lighting is even, highlighting the tactile quality of the material.

A close-up photograph of a nonwoven fabric. The fabric is light-colored and has a distinct, porous, and textured surface, characteristic of a nonwoven material. The texture consists of small, irregular, interconnected fibers that create a mesh-like appearance. The fabric is shown in a curved, draped manner, with a dark, possibly black, background visible at the bottom. A watermark is overlaid on the fabric.
